Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

The focus of the forecast is on late Wednesday afternoon through Thursday with a cold front and a closely following surface trough that will bring gusty winds with rain and snow. But first skies are mostly cloudy to cloudy and a band of showers that provided locally heavy rain west of the cascades on Monday evening is lingering from the vicinity of Mount Shasta Northeastward to western lake county. Clouds are expected to gradually break and the band will continue to slowly shift eastward today with showers to soon develop across lake and Modoc Counties Temperatures today will continue a cooling trend and will be near normal.

Eureka Weather:

Mainly dry weather is expected today. Another weak system will bring a few showers to the area tonight. Wednesday evening through Thursday a stronger and unseasonably cold system will bring heavier rain and snow. Friday into the weekend will see high pressure bringing warm and dry conditions.

Reno Weather:

The coverage of showers is expected to be much less today with drier westerly flow. Wednesday, winds will increase ahead of a sharp cold front Wednesday night and Thursday. The front and upper low will bring chances for rain and snow, highest in northeast California and far northwest Nevada, with some travel impacts in the Sierra possible. A significant warm up is expected over the weekend as high pressure builds overhead.

San Francisco Weather:

Dry weather with seasonable temperatures will persist through early Wednesday. Rain will be possible Wednesday night into Thursday as a weather system pushes across the forecast area. Dry weather will then return late in the week and persist into next week with a warming trend.

Sacramento Weather:

Scattered showers are possible across the mountains and Northern Sacramento Valley today and Wednesday. A colder system will bring rain and snow to the area Wednesday night into Thursday.

Weather

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

Expect just a few lingering showers or thunderstorms over the sierra today and temperatures near normal across Central California through Wednesday as a storm system continue to move east away from the area. Another weather system moves in on Wednesday night and into Thursday. This system will bring more showers mainly over the sierra along with a colder air mass and breezy to windy conditions during Thursday and Friday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will keep things dry and kick off a warming trend today and Wednesday. It will be partly cloudy and cooler Thursday. It will be breezy Thursday night and Friday. Clear skies and warmer temps are on tap for the weekend.

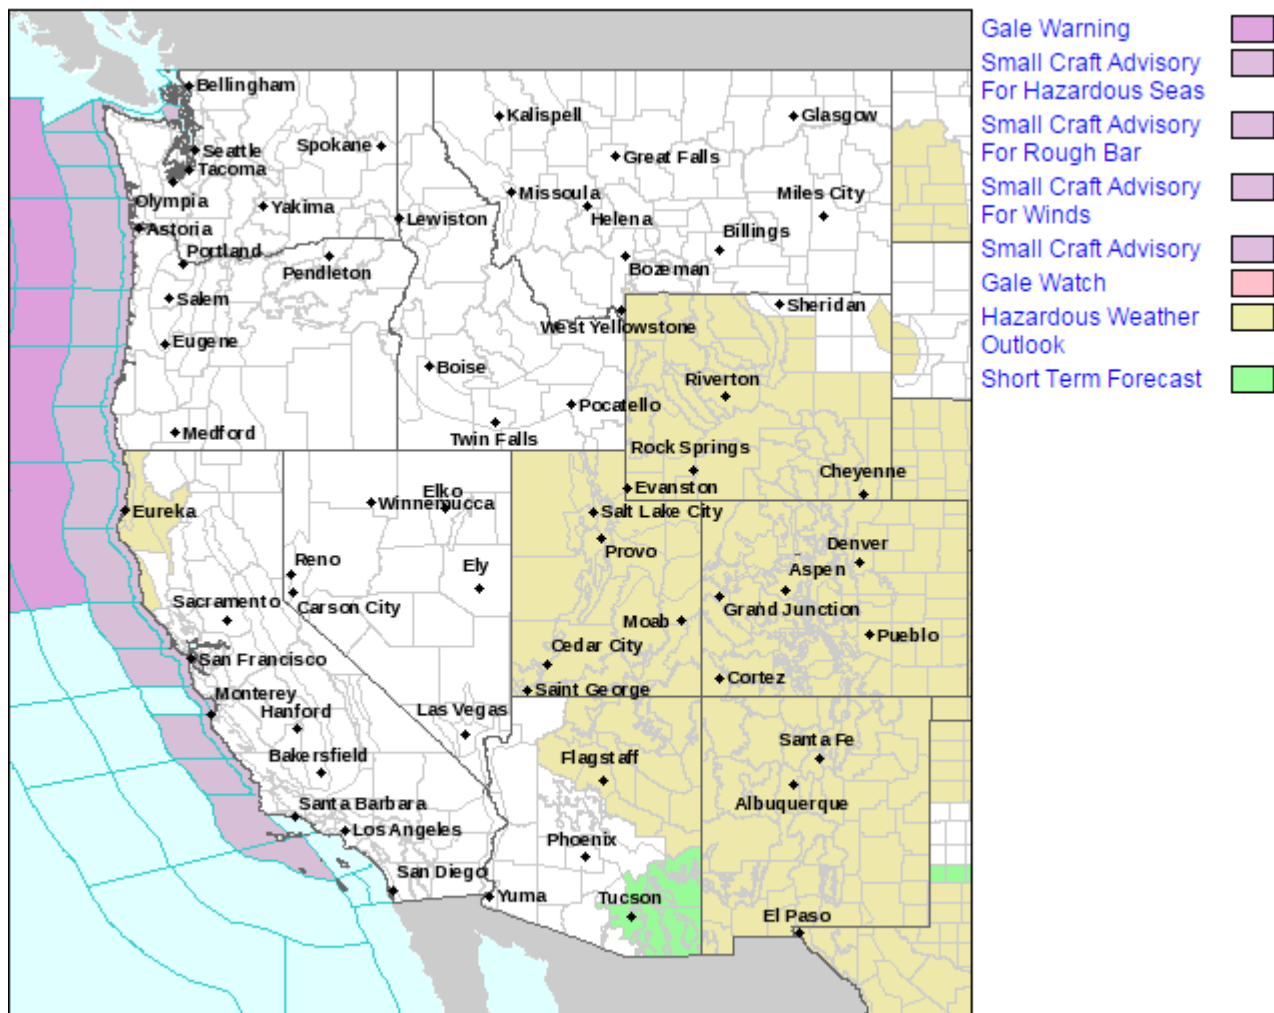

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Dry northwest flow will prevail through Wednesday with slight warming. Another large upper low will drop into the great basin on Thursday creating strong and gusty onshore winds and cooling. Winds will turn offshore into the weekend bringing dry and warmer weather.

Southeast California Weather:

A low pressure system will bring showers and thunderstorms to portions of Southern Gila County today while mostly sunny skies will be on tap for the lower deserts of southeast California and south-central Arizona. Much warmer and drier weather will return to the entire forecast area Wednesday and Thursday. Another pacific weather system will move over the Western United States Friday and Saturday bringing cooler weather back to the region.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
